ABOUT US

ENGINEERING AND SERVICES

SWITCHBOARD MANUFACTURING

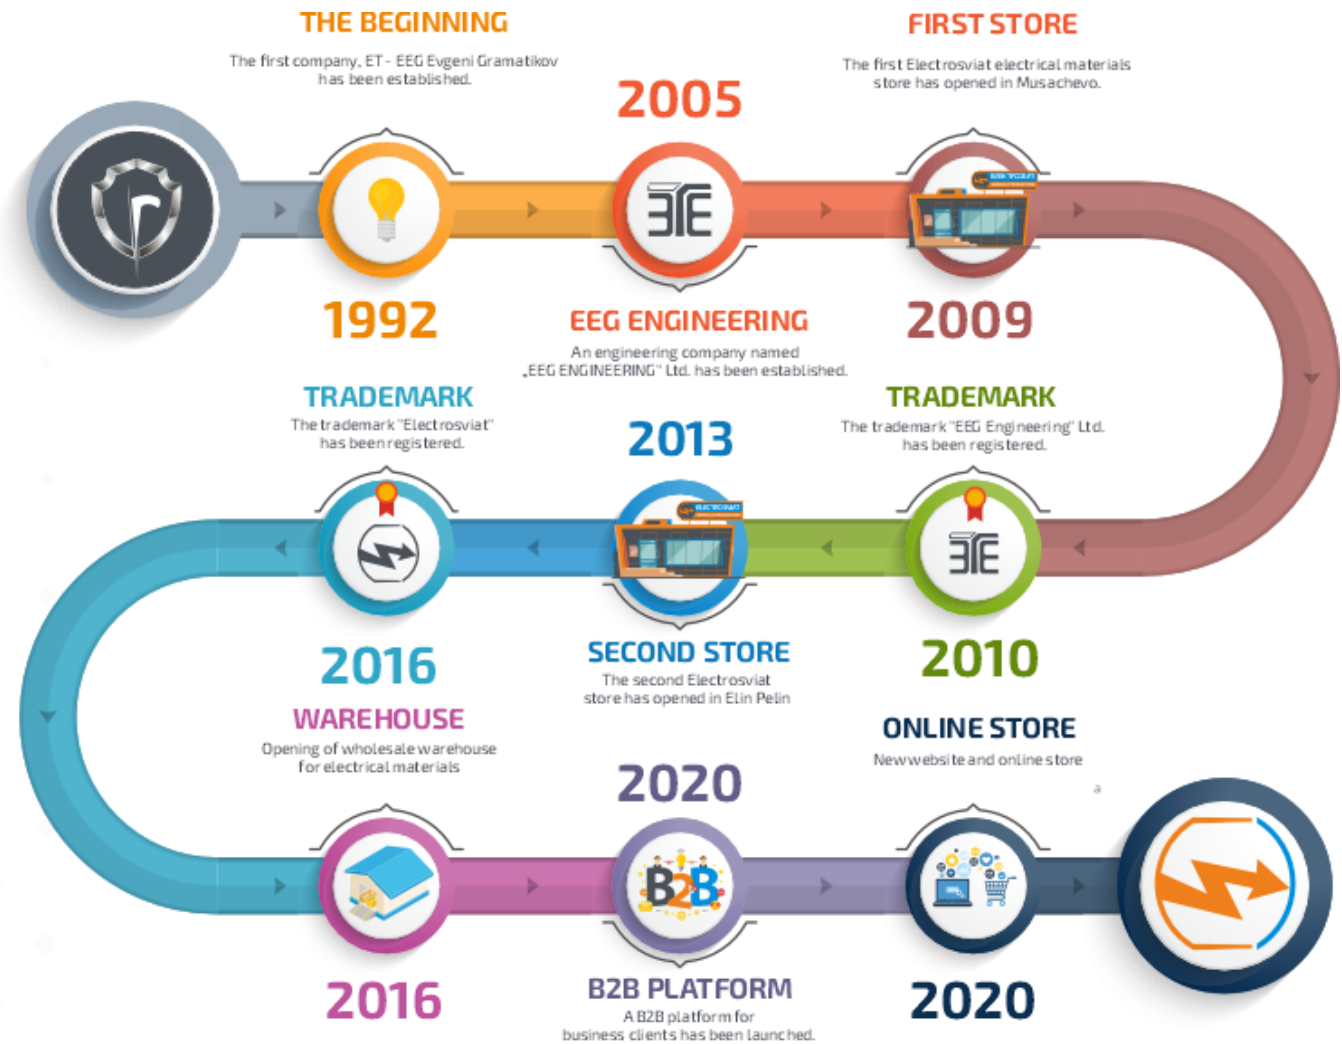

DISTRIBUTION AND TRADE

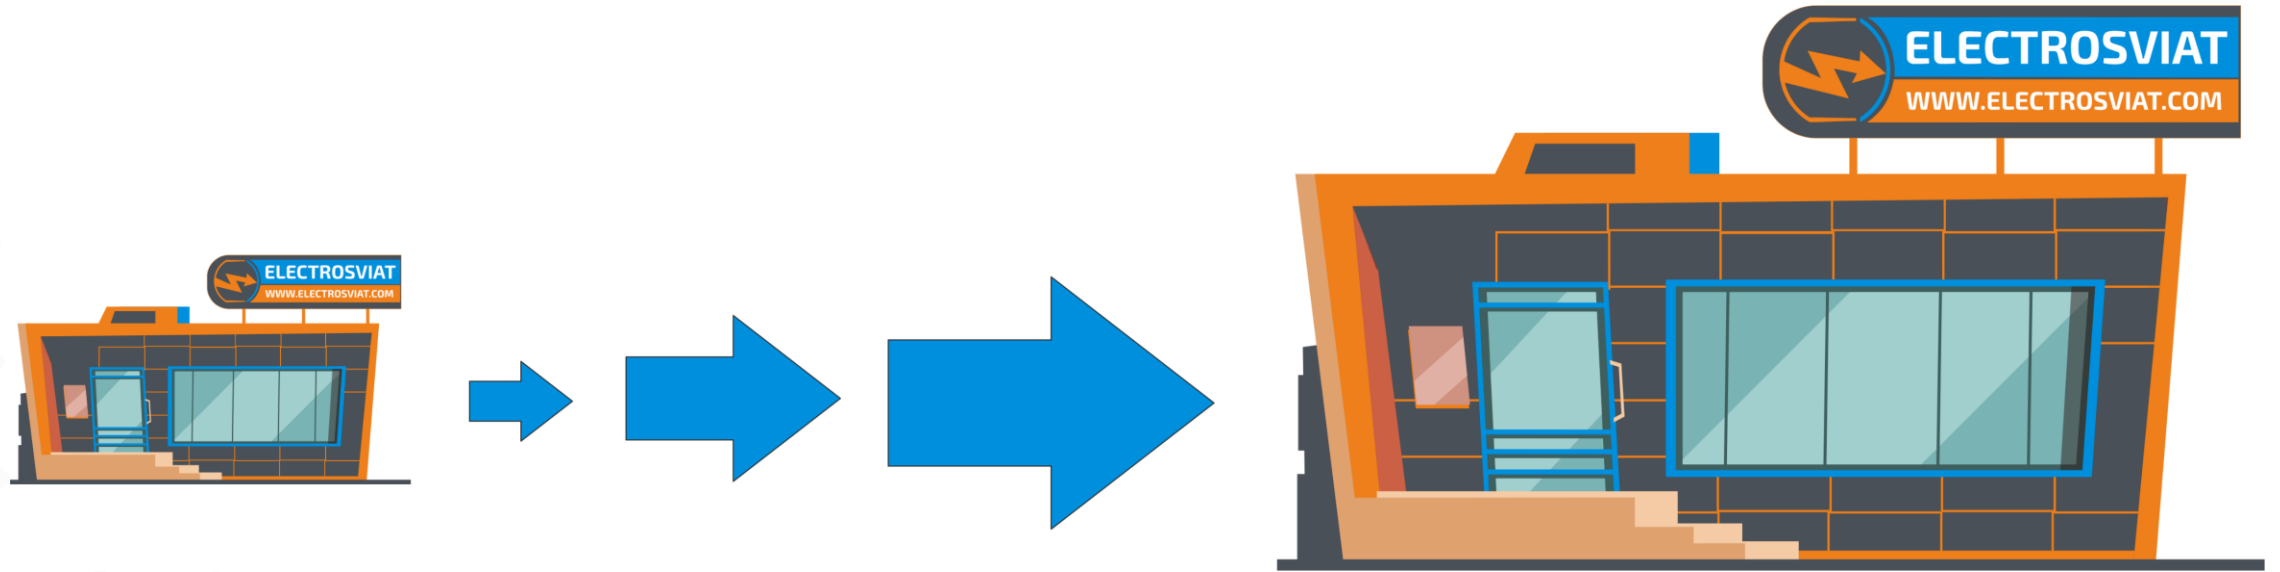

ELECTROSVIAT is a registered trademark and part of the engineering company **EEG Engineering Ltd.** The brand focuses on the distribution of electrical materials, striving to work with both wholesale clients and reach to end consumers. The team's work is aimed at providing quality products for their clients that meet the requirements and search criteria. We rely on products from established and proven manufacturers, ensuring quality and reliability. With us, you can find a wide range of electrical materials from manufacturers such as **ULTRALUX, PCE, KETER, WEIDMUELLER, WAGO, SCHRACK TECHNIK, LEGRAND ELECTRIC, SCHNEIDER ELECTRIC, SIEMENS, WEICON, FELO, SPELSBERG, AND MANY OTHERS.**

HISTORY

The beginning of our company's starts back to 1992 with the establishment of "ET EEG - Evgeni Gramatikov," primarily engaged in "Construction of industrial and household electrical installations." After long development at 2005, the company "EEG Engineering" Ltd. was founded, focusing on engineering, electrical design, building of electrical installations, electrical support and trade with electrical materials. Along the time we develop three registered trademarks – EEG Engineering, Electrosviat, BoxElectro. We invest in new warehouse, shop, showroom, switchboard manufacturing facility and the most important in our highly professional team, witch guarantees the quality of our services.

DEVELOPMENT

In 2009, the first **Electrosviat** electrical materials store was established. In 2013, our second store was opened in the town of Elin Pelin, primarily focused on innovative products and LED lighting. As our business expanded, in 2016, **Electrosviat** officially became a registered trademark of **EEG Engineering Ltd**. That same year marked a significant leap in the development of our commercial activities with the opening of our wholesale warehouse covering an area of 1000 m².

Our story continued in 2020 with the launch of our B2B system and online store. In 2021, we opened our store and showroom spanning 200 m² in the town of Elin Pelin. In 2023, we completely revamped our B2B system and created a new platform for all our clients, with a vision for the future. Our journey continues, evolving and adapting to meet the needs of our customers.

MISSION AND VISION

The company's mission is to provide quality services to our customers. Our main goal is to achieve good results in our work and establish lasting partnerships with clients, to whom we strive to offer the best services at reasonable prices. At EEG Engineering Ltd. / Electrosviat, we work towards transforming the company into a modern organization for providing high-quality products and services. To achieve this, we make long-term investments in marketing, advertising, training, and qualification of our staff and clients. In the long run, the company's objectives are focused on establishing our firm as a reliable and fair engineering and trading partner in the field of electrical engineering with a vision for the future.

TRADING

The main activity under our brand Electrosvyat is the wholesale and retail trade of electrical materials. We offer a comprehensive service for the delivery of electrical materials, catering to both stores and warehouses, as well as end customers. By adhering to the right trade policies, we have successfully introduced global and Bulgarian brands to our market. We are the official importer of the DIY segment for the Keter brand in Bulgaria, a distributor of Ultralux for Western Bulgaria, and a distributor for brands such as Weidmueller, PCE, Wago, ActiveGear, Schrack Technik, and dozens of others. For all our clients, we provide a flexible way of placing orders, payment, and receiving goods, as well as a stable pricing policy, allowing our wholesale and retail customers to shop under the best conditions.
