**PRODUCT
PRESENTATION**

KETER

KETER[®]

We have developed three distinctly segmented brands with product lines that can be clearly identified by retailers and end users. Starting from **ROC** for hard-core professionals that meets and surpasses the expectations of a trade audience. Secondly, **PRO SERIES** a brand that is identifiable with the committed individual and finally **KETER** an entry-level brand designed for everyday users. Each range has been carefully considered to ensure each meets and exceeds the demands of the individuals they target.

KETER®

ROC

TRADE FOCUSED PROFESSIONAL

Professionals demand tough and rugged tool storage that can withstand harsh elements on a daily basis, the ROC brand encapsulates this with its heavy-duty, performance focused range of tools and accessories. Designed for the toughest tasks and rigorously tested for optimum endurance under severe conditions, the range includes stackable storage boxes and workbenches offering functional and versatile solutions that are designed to stand up to whatever a job throws at them.

KETER

PRO

SERIES

PRO SERIES OVERVIEW

The PRO Series is made for the dedicated enthusiast. This strong and durable range will keep power tools, equipment and accessories expertly organised and robustly stored, earning the trust of everyone from the dedicated home enthusiast right through to tradesmen and pros. The range is made up of strong, spacious and durable connecting toolboxes and multifunctional workbenches offering users superb organisation and safe storage that is built to last.

KETER®

KETER TOOLS

STACK N' ROLL

KETER®

EVERYDAY. EVERYWHERE.

The Keter Everyday range offers great value and reliability, these products are for everyone from the hobbyists to the artists right through to those that need practical and reliable everyday storage for tools and equipment around the home, featuring smart and functional design the Keter Everyday range includes toolboxes, caddies and stackable bins each has been tailored to fit within the home with ease and designed to make life easier.

RDC

GEAR SERIES

DESCRIPTION

Introducing the GEAR tool storage system – a mobile, stackable tool storage system for separate or combined use. The Mobile Gear Cart is a totally portable, heavy-duty cart with telescopic handle and wheels, so you can transport your equipment with ease. The open “catch all” Crate is great for carrying bulky tools and accessories. Stack it on top of the Gear Cart for extra storage and extra mobility. The top Gear Organizer is designed for small parts and accessories, and includes removable bins for fast access on the job. All toolboxes feature water-resistant rim, metal lid stopper for tough lid performance, and metal side handles. Want a mobile storage solution? Connect the three boxes with the high-performance stacking lock and get moving with the professional tool storage system!

JOB BOX

DESCRIPTION

The JOB BOX is perfect for professionals who require a mobile cart to help them move from one job to another with ease. Practical and convenient, this spacious cart provides an all-in-one solution for storing and transporting larger tools, medium sized accessories and small parts. The cantilever mechanism opens up to give access to any area of the cart. Easy to customize, the cart can be transformed from a three to an eight compartment unit by adding or removing the dividers. A central locking system keeps the contents secure. Mobile and practical, this cart comes with 7" rubber wheels and a large retractable metal handle with a soft grip.

LUMBERJACK SAWHORSE

DESCRIPTION

KETER

RDC

Taking the sawhorse concept to new heights, the innovative Lumberjack™ will suit professionals and DIYers who need a multifunctional product to meet their ever-changing requirements. A unique ratcheting opening and closing system offers a fast and easy height adjustment setup. The integrated wood piece is a standard 2"x4" size and can be used in multiple ways to create a unique and personalized work area. You can create your own jigs to suit various projects, use it with a wider wood piece attached on top for a larger work space, or with a longer piece to extend your work surface. The piece can be easily replaced when needed as it has standard measurements. This practical sawhorse has heavy-duty metal legs that can be adjusted individually, allowing for uneven surfaces and raising the sawhorse from 31" to 39". With a capacity of 3000 lbs/1360 kg per pair the compact Lumberjack™ will handle various types of jobs perfectly. A bottom tool tray with a capacity of 50 lbs/23 kg adds more functionality and more stability to the design.

DESCRIPTION

An ideal choice for any weekend warrior, this toolbox has a conveniently mobile design. You can take with you all the tools you need for a job and store them in one place. The box is ideal for bulky tools, while the organizers are perfect for smaller sized tools and parts. The extra organizer can be easily removed when needed. Easy to transport, this mobile toolbox features rubber-track wheels and a foldable handle.

STACK N' ROLL

The **STACK N' ROLL** system's customers base is diverse in terms of age and interests - From Light DIY to heavy DIY. These customers mainly are Budget-conscious tradesmen.

STACK N' ROLL is a dual-concept that combines a stationary "at home" and a mobile "on the move" solution. It provides an excellent, easy-to-create organization for a garage / utility room, and easy mobility, when you need to work outdoors.
